Fax: _____

Name of Principal: _____

Grades/subjects you will teach 2003-2004: _____

Please describe leadership experiences in Alliance and/or related professional development programs, including any particular mentoring know-how.

Please comment on your abilities and interests related to each GEOEarthKAM objective:

To develop expertise in remote sensing, environmental science, and spatial inquiry-based learning

To develop and learn mentoring strategies to engage additional geography and environmental science educators in EarthKAM in order to build a GEOEarthKAM community

To prepare documents showing ways to integrate EarthKAM into geography, environmental science, and science curricula in your home state/districts

To build awareness of cross-cutting educational Standards in geography, science, mathematics, and technology.

Please note that following the workshop, as a GEOEarthKAM teacher-consultant (GEOEarthKAMTC) you will be expected to

- • Participate in ISSEarthKAM with your students
- • Recruit at least three additional geography/environmental science educators to EarthKAM between 2003-2005
- • Present professional development experiences that will build a community of GEOEarthKAMTCs
- • Participate in a support network through an on-line community environment (listserv, web site), follow-up meetings at national venues, and presentations/training opportunities at state and regional conferences.
